

DISCOVER THE SECRET SAUCE

Phase Conjugation - Life affirming Bio-Active Field

QUANTAPHI™

Taking Sound Healing to a Whole New Level

The **Quantaphi™** is the latest development from the creators of the Theraphi. The Theraphi is well known around the world and recognized as the most advanced Plasma Wave therapy device. Phi-ratio-harmonic-cascade-induced longitudinal plasma waves and their resultant superluminal phase-conjugate (time-reversed) negative entropy, is the key to well being and healing.

The Quantaphi™ is designed to be used as a room conditioner for sacred space and meditation.

- Several plasma tubes can be charged to fill the room with coherent energy, including sound.
- The plasma tubes are charged wirelessly and can be handled safely and positioned near the Tesla coils to light up.
- The light from the plasma tubes is a beautiful purple orange gold blue in a darkened room.
- Any audio source can be input to the amp, analog and digital.
- Any sound therapy program or audio function generator can be used with the Quantaphi.
- The Quantaphi™ radiates a coherent energy field protecting you from negative EMF radiations.

“The Quantaphi™ radiates a coherent energy field protecting you from negative EMF radiations..”

The Quantaphi's new compact Plasma Tubes also provide a new accessory to complement the original Theraphi and it opens the door to several new applications. It allows you play any of your favourite music through the Hi Fidelity amplifier while activating the plasma at the same time with the tesla coils. This creates an electrostatic field in the proximity of your sound system. The coils and plasma producing this field increases the quality of the listening experience. The plasma tubes can be used as with traditional frequency based plasma healing devices. They are capable of creating a large field effect as well as being gentle enough for direct contact. The Quantaphi™ modulates the Tesla coils/plasma tubes with the stereo audio signal, optionally it can stimulate the Tesla coils to produce high frequency sound to complement the stereo speakers, a corona wind tweeter!

By combining plasma and sound healing technology; the Quantaphi provides a wide range of applications. Included with the system is:

- Hi Fidelity Class-D amplifier with a wide range of inputs.
- Two Tesla Coils, each one capable of driving several plasma tubes as well as being able to act as two independent channels.
- Two plasma tubes which can be driven in various configurations by the Tesla Coils.

You can use a multitude of existing frequency generating sources including:

- Spooky2 • Flame in Mind
- Any function generator
- Any software based

Quantaphi™

Negentropy is, in fact, life force itself - the ordering force in the universe. Entropy is the breakdown of order and is associated with the forward movement of time. But time has two arrows! Time reversal is the backward movement of time and is the restoration of order.

The Quantaphi™ may be purchased separately or with the Theraphi, priced as a package! For a detailed understanding take a look at the Theraphi and its history, go to Theraphi.tech.
